It features several decorative elements: a string of colorful streamers (blue, pink, green, teal, orange, purple) and two large, round lanterns (one orange and one green) hanging from white lines. There are also several yellow starburst or snowflake-like patterns scattered across the background.

Planned Parenthood! Family Planning!

Planned Parenthood California Central Coast is proud to serve Santa Barbara, Ventura and San Luis Obispo Counties with high-quality health care, education programs, and advocacy for reproductive health and rights.

Last year, our 5 health centers provided care to nearly 33,000 patients through nearly 55,000 health center visits. On February 5th, 2018, we were delighted to open a brand-new satellite health center in Paso Robles!

Our health centers provide lifesaving health care, including breast and cervical cancer screenings, sexually transmitted infection testing and treatment, birth control, and safe and legal abortion.

Last year we also began providing treatment for syphilis as we saw rates increase along the Central Coast. We also started providing cutting-edge medications – PrEP and PEP – which safely reduce the risk of HIV infection.

Our education programs serve nearly 1,000 teens each year with evidence-based programming, which is proven to reduce rates of unintended pregnancy and sexually transmitted infections. Thousands more benefit from outreach: Planned Parenthood has a presence at health and community fairs, reaching people with information and free condoms. Last year, we distributed over 600,000 condoms in our three counties.

Last year, we did all of this while under unprecedented attack by Congress and a new administration.

As we fought back, we weren't alone. Our supporters gave generously, rallied with us, called their senators and members of Congress, marched, and spoke up about the need to support Planned Parenthood.

Because of everyone who stood with us, we were successful at preventing Congress from harming our patients. The fight isn't over; we know we must remain diligent. That's why we are so grateful for your support. Together, we will keep our doors open, no matter what!

Choice Affairs 2018

Celebrating 29 Years of Fabulous Events Plan to Party!

The past few months have really tested our communities. Not only did we have to fight – again – to keep Planned Parenthood from being defunded in Congress, but many of our friends, supporters and patients suffered unimaginable heartache due to fire and mudslides.

Despite these incredibly challenging times, we have continued to stand together, be here for one another and are stronger and more resilient than ever.

Thanks to the hard work and dedication of party planners, party hosts, underwriters, volunteers, and donors, we are pleased to announce that this year – perhaps our most challenging in recent memory – we have a record 34 events to celebrate our triumphs and rally to ensure we don't lose momentum!

We'd also like to express our appreciation to **Carol Hillygus-Irving and Blake Irving**, the **Cheeryble Foundation** and **Shirley Thayer** for generously underwriting the production cost of the booklet. Many thanks, too, to our editor, **Nancy Davidson**, our writer, **Betsy Manger**, and especially to our graphic designer, **Chris Flannery**, who has created yet another lovely booklet.

There are so many unique opportunities to support Planned Parenthood California Central Coast through this year's event series – truly something for everyone. Now that some of the tough times are behind us, we hope to see you at one or more of these fabulous events that our committee has worked so hard to put together.

Come join us... and **Plan to Party!**

Clear The Decks! Come Play Bridge

Meet the challenge in the fabulous home of **Leslie and Ashish Bhutani**, situated high in the hills of Montecito. With a spectacular view—sparkling ocean and islands beyond—this is the perfect place to enjoy the excitement of playing bridge with like-minded people!

Bring your bridge partner or come on your own, as partners will rotate throughout the afternoon.

Before the games begin, you will have time to get acquainted with your bridge buddies while enjoying champagne and a light snack. There will also be time to wander through this magnificent home, appreciate the art and admire the modern architecture.

Bridge aficionados **Pat Sweem** and **Laura Newman** will be on hand to make you comfortable and keep you well fed! **Don Newman**, an excellent bridge player himself, will organize the games for at least a dozen hands of bridge.

After successful crossruffs, brave discards and decisive plays, celebrate a feeling of accomplishment and calm your nerves with libations and delectable appetizers.

Prizes will be awarded for the winners of the day, though everyone will be a winner—**The Stationery Collection** in Montecito's upper village is generously gifting each player with a set of personalized playing cards!

Grateful appreciation to Leslie Bhutani for holding all the cards by hosting and underwriting this event, and to co-hosts Pat Sweem and Laura Newman.

Book Crafting & Afternoon Tea

Join us for a lovely afternoon of crafting and an elegant tea...

As it turns out, not all of the books donated to the annual Mary Jane McCord Planned Parenthood Book Sale are in good enough condition to resell, so our wonderful (and crafty) book sale volunteers have once again created a unique opportunity to repurpose those unsellable books into beautiful, useful or crafty objects!

Teams of experienced crafters will guide you through the process of creating three simple craft projects that you will take home. Perhaps you'll be inspired to take your book crafting to the next level. Your hosts will have advanced projects on display and will answer questions about the how-to's and their inspiration sources.

Between projects, enjoy a delightful afternoon tea, with classic tea delectables, including cucumber sandwiches. Yum!

Many thanks to tea hosts **Debbie Armstrong, Elizabeth Downing,** and **Debra Teton.** We appreciate our inspiring book crafters **Mary Fox, Janet Glasheen, Mavis Hansen, Melinda McKenna** and **Jeanette Mustacich.**

And our gratitude goes to the year-round volunteers of the Mary Jane McCord Planned Parenthood Book Sale for hosting this event and providing the materials.

More Mesa's "Best Kept Secret Garden"

On a south-facing bluff, overlooking the rolling waves of the Santa Barbara channel, lies a 17-acre plot of palms, cycads and succulents that feels more like Bali than Central California. There is only one species of palm indigenous to California, so it's remarkable to wander among fifty varieties, including three unusual hurricane palms, referred to as the "Loch Ness Monsters."

Join **Cristi Walden** at **Sea Crest Nursery** in Santa Barbara as we tour the grounds and peek inside the fascinating selection of palms and cycads. Learn about the history and future of this "best kept secret garden" along with many other interesting botanical aspects of this wholesale nursery.

The nursery was established over 40 years ago by **Jack Stevenson** and his wife **Charnee**, who decided to leave the city scene and develop a commercial palm nursery. These plants became featured in many elaborate local gardens, including Lotusland, the Santa Barbara Biltmore, Bacara Resort and the Miramar. Jack, as one of the foremost authorities on palms, still enjoys running the family business alongside his daughter, Cristi.

After an amazing tour of the nursery, drive a short distance down the lane to partake of some sparkling beverages and a scrumptious lunch, including a few edible palm parts!

Sincere appreciation to Jack and Charnee Stevenson for opening up their garden, to Cristi Walden for her fun and informative tour and to **Annette Gilkeson** for providing a palm-studded lunch venue. Also, thanks to **Holly Sherwin** for organizing and underwriting this wonderful event.

It Looks Like Marble... But It's Not!

- * Are you ready to be creative?
- * Do you want to create practical objects that you can really use, like stationery, note cards and gift bags?

Join artist **Sharon Nigh** as she teaches you the art of paper marbling in a fun (and not too challenging) workshop at Santa Barbara's **Art From Scrap**.

Paper marbling is a method of aqueous surface design which creates patterns that look similar to marble or other types of stone. It is a decorative technique that has been practiced for centuries and can be used in a myriad of ways.

It's simple and it's magical! You'll be amazed at the beautiful results after completing your own marbled masterpiece that you will take home and use.

After all that crafting, walk half a block and you will arrive at the magical **El Zapato**. Our gracious hostess **Carla Lejade** is opening her whimsical three-story Jeff Shelton-designed home for a delicious lunch on the rooftop deck, provided by **Jennifer Shivley of Lunchbox**. Take in the fabulous 360-degree view while you eat, sip wine and relax from a hard day's work of creativity.

Much appreciation to **Carol Spungen** for coordinating this fun, art-filled day, and to our hosts Sharon and Carla for making it all very special. Many thanks to Carol Spungen and to **Jennifer Royal** for underwriting.

Floral Finesse...The Art & Science of Flower Arranging

Back by popular demand!

The art of flower arranging eludes most of us. How are those roses and peonies and tulips transformed into one cohesive piece of beauty—sometimes romantic, sometimes whimsical, and other times, modern?

Those in the know turn to Montecito florists **Hogue Floral** to create that perfect arrangement. But, really, don't you want to learn how to do it yourself? This is your chance. **Kristi Meland**, a partner at Hogue, will spend an afternoon teaching you skills she's honed throughout the years. Kristi will demonstrate the techniques of selecting and combining flowers. She will show us different approaches to producing various arrangement styles, the importance of greenery, and her tips on what elevates an arrangement from pretty to spectacular.

With buckets of flowers plus glass vases, you'll have the afternoon to play and experiment with different styles and a variety of flowers until you have that one perfect arrangement. Your final masterpiece will certainly be worth more than the price of admission to this lovely afternoon.

Light snacks will be offered while you're learning and working, all in a spectacular setting. **Ann and Jeff Frank** are opening their very special art-filled home that has breathtaking views of the natural beauty of Santa Barbara. Floor-to-ceiling windows and rooms filled with their curated collection of art will inspire us to create our own works of beauty.

Many thanks to **Marnie Pinsker** and **Barbara LaPlante** for underwriting and to co-hosts **Minda Kraines** and **Suzy Cawthon** for putting together this lovely afternoon.

Wandering The Estero Bluffs in Cayucos

Experience the beauty of some of the last undeveloped coast, north of Cayucos!

Hike along the Estero Bluffs with a local naturalist who will share abundant secrets about the plants, animals and natural history of this area.

Before you put on your hiking shoes to begin the two-mile stroll along the spectacular Estero Bluffs, gather for lunch at the beautiful home of **Laurie Niblock**. Take in the breathtaking ocean views while you find out about how the community of Cayucos came together to save this remarkable land from development and how it ultimately became a state park.

Joining the California State Parks system in 2002, this area in San Luis Obispo County preserves the rich, diverse and extraordinarily scenic terrain along the Pacific Ocean Coast. It features wetlands, bluffs, coastal areas and streams. It has a diverse natural history, as well as an equally noteworthy human-inspired past.

Cruising to Santa Cruz

Explore the history and buildings of Santa Cruz Island, within the **Channel Islands National Park**. After a cup of coffee and a breakfast snack, you'll climb aboard and take a cruise with **Island Packers** from the Ventura Harbor to this nearby, yet nearly unknown, neighbor. Watch for an escort of cavorting dolphins and sea lions and birds as you make the journey across the channel.

After arriving at the pier, you'll take a short hike before being transported to the UCSB Santa Cruz Island Field Station. Located in the central valley, this is one of the most remote sections of the island. It is managed jointly by **The Nature Conservancy** and the **UCSB Natural Reserve System** and is usually inaccessible to the general public.

Enjoy a picnic lunch while **Marla Daily**, president of the Santa Cruz Island Foundation, and staff members of the Santa Cruz Island Reserve (UCSB Natural Reserve System) give you a briefing about the island's history and its early inhabitants and answer any questions you may have.

Afterwards, you'll make a short trek to the ranch from the Field Station to tour the Saddle Museum, Archaeology Museum, Chapel and Cantina Vieja Museums, all of which feature information and artifacts from the Caire and Stanton families.

On your return trip to the mainland, sit back, relax and enjoy the sunset.

Special thanks to **Bobbie Offen** for organizing and leading this unique experience and to Marla Daily for making it all happen. Appreciation goes to co-hosts **Laura and Don Newman** for lending a hand and to **Terry Kleid** for underwriting.

"No Thanks, Mom"

In the beautiful garden of one of Montecito's private estates, discover why your children probably don't want all the wonderful stuff you've been saving for them for years.

While sipping a light libation or iced tea, stroll through the house and admire our hostess's collections and art, then enjoy a delicious lunch while **Elizabeth Stewart**, appraiser and author of *No Thanks, Mom*, shares invaluable insights as to what your children really don't want, and why. In the business of appraising for more than 30 years, Elizabeth also knows who would be happy to take those beautiful old linens, Persian rugs and grandma's monogrammed china off your hands, how to inventory and make the hard choices if you're downsizing, and what to do with boxes of photographs of relatives that no one remembers.

You will also take home a copy of her book because it is never too early to start a conversation with your children about the things you think they will want. Elizabeth is as entertaining as she is wise, so come for lunch, laughter and a fun start to the weekend.

We are so grateful to **Elizabeth McGovern** for sharing her lovely home and garden, and to **Kelly Simmons** and **Valerie Williams** for creating this event.

Konnichiwa Malibu

“The meek shall inherit the earth, but not its mineral rights.”

So said J. Paul Getty, an American-born boy from Minnesota who made his first million by age 25. He was recognized as one of the richest men in the world, but he was infamously frugal.

Here's our chance...the fun begins as the bus departs from Santa Barbara and arrives at **Anne and David Gersh's** Japanese-style beach house in Malibu. Awesome American Art

Calling all art lovers!

Share the dedication and excitement of the collecting spirit with your hostess, **Sybil Rosen**, in her art-filled redwood and glass Montecito home.

More than 75 paintings collected by Sybil and her late husband **Robert Fisher** over a period of 50 years show outstanding examples of figurative, landscape and street scenes by American artists, 1880–1960. This collection includes primarily East Coast and Midwest painters such as Daniel Ridgeway Knight, Dale Nichols, George Ames Aldrich, Gretchen Rogers and Robert Brackman, to name a few.

American sculpture is also represented—works by noted sculptors Albert Wein, David Gray and Joseph Goethe. There will be some surprises: early works by John Gamble, Phil Paradise and Douglass Parshall and a powerful painting of Emmy Lou Packard. Furniture designed by Maloof, Eames and Frankl will add to the richness of your aesthetic experience

Don't worry if you are not well acquainted with American art. **Paul Longanbach**, Chair of the Santa Barbara Museum of Art Collectors Council, will enrich your understanding and appreciation of these fine works. Paul's humor and honesty will bring the art and artists to life. To round out your perspective on this particular collection, Sybil will share tales of her collecting experiences.

A flavorful buffet lunch prepared by **Jere Lifshitz** completes your delightful experience! Special thanks to Sybil and Jere for underwriting this art-filled day, and to **Minda Kraines** for lending a hand.

Plein Air – Painting in The Carpinteria Hills

What is plein air painting? Done through direct observation, it is about leaving the four walls of a studio to experience painting and drawing in the great outdoors.

Although it was practiced for centuries, the French Impressionists transformed it into an art form due to their desire to depict light with its ever-changing and ephemeral qualities.

Esteemed local artist **Garrett Speirs** is a painter and printmaker. He has been featured in shows locally and internationally, and his art is in a number of collections, both public and private. He has also been hosting a study abroad workshop called Plein Air Tuscany over the past couple of years in Italy. Garrett works primarily in oil, but also uses other mediums including egg tempera, watercolor, gouache and fresco. His studio, **SB Litho**, is the only lithographic printmaking studio between Los Angeles and San Francisco.

As Garrett muses, “Painting is not unlike language. You have to use it, or do it, in order to be proficient...” So, he has generously offered his support to get you started on your own artistic journey by sharing his talent and wisdom.

Be inspired by the views at the historic **Rancho Monte Alegre** in Carpinteria, as you watch demonstrations, discuss how to begin painting plein air, and enjoy some wine and cheese. In addition, participants will have the option to work on a guided painting or drawing.

Our appreciation goes to Garrett for generously sharing his time and talent, and to underwriters and co-hosts **Kelly and Ted Simmons**.
